

Collaborative Sustainable Innovation

co-designing small-scale fisheries governance approaches

The project aims to engage with the following stakeholders:

Organisation	Position	Area of focus
European Parliament	Irish MEP/MEP advisor sitting on PECH Committee	European and Irish inshore fisheries governance practices and processes
Low Impact Fishers of Europe (LIFE)	Representatives at both strategic and Irish member levels	European and Irish inshore fisheries governance practices and processes
National Inshore Fisheries Forum	Representative	National inshore fisheries governance practices and processes. Strategy for the Irish Inshore Fisheries Sector 2019-2023
Regional Inshore Fisheries Forums (RIFF)	Representative from each of North, North-west, West, and South-west RIFF.	Regional inshore fisheries governance practices and processes. Strategy for the Irish Inshore Fisheries Sector 2019-2023
Department of Housing, Planning and Local Government	Representative from Marine Spatial Planning team and from Marine Strategy Framework Directive (MSFD) team	Irish inshore fisheries governance within wider contexts of marine spatial planning and MSFD conservation obligations, including marine protected areas
Department of Agriculture, Food and the Marine	Representatives from Marine Agencies and Programmes Division and Sea-Fisheries Policy and Management Division	National inshore fisheries governance practices and processes. Strategy for the Irish Inshore Fisheries Sector 2019-2023
Bord Iascaigh Mhara	Representatives involved in inshore fisheries governance at both strategic and logistical levels.	National inshore fisheries governance practices and processes. Strategy for the Irish Inshore Fisheries Sector 2019-2023
Fisheries Local Action Groups (FLAG)	Representative from each of North, North-west, West, South-west and South FLAG.	Local inshore fisheries governance practices and processes. Strategy for the Irish Inshore Fisheries Sector 2019-2023

Producer Organisations	Representative from each of Killybegs Fishermen's Organisation and Irish South and West Fish Producers Organisation.	Representation of inshore fisheries; changing institutional landscape of inshore fisheries.
National Inshore Fishermen's Association and National Inshore Fishermen's Organisation	Representative from each of NIFA and NIFO	National inshore fisheries governance practices and processes. Strategy for the Irish Inshore Fisheries Sector 2019-2023. Changing institutional landscape of inshore fisheries.
Sea Fisheries Protection Authority	Representatives involved in inshore fisheries governance at strategic and logistical and research levels.	Challenges faced by the inshore fishing sector. Challenges faced by the SFPA in relation to the inshore sector.
Irish Islands Marine Resources Organisation (IIMRO)	IIMRO representatives from each of four island groups; various IIMRO members and non-members (men and women) involved in inshore fisheries (target: 30 individual/group interviewees).	Local inshore fisheries governance practices and processes; profiles and needs of the four island groups in the context of fisheries management; connectivity and communication between fisheries and markets; access to fisheries resource; co-designed small-scale fisheries governance initiatives; small-scale fisheries governance models for the islands.
Comhdháil Oileán na hEireann – The Islands Federation	Representative	Challenges faced by the Irish islands and island sustainability.
Marine Times	Representative from editing team	Changing institutional landscape of Irish inshore fisheries.
Inshore Ireland	Representative from editing team	Changing institutional landscape of Irish inshore fisheries.
Grow Remote (Ireland's remote working platform)	Representative	Grow Remote narratives and how these meet/challenge the narratives of peripheral regions
